TO WHOM IT MAY CONCERN:

Anchor surveys are a great company to work with, they handle all challenges on a very professional manner. The planning that they do are at a very high standard and Wesley is always very helpful with planning changes and always willing to go the extra mile to succeed. Anchor surveys always work hard to stick to deadlines.

Anchor surveys worked with us on quite a few projects SDU area builds and MDU builds and all of the projects was a huge success due to correct planning and surveys that was done perfectly
